\*Agenda Subject to Change

**Ms Homitz, LPT** brought the Pilates method of body conditioning to the Cleveland Clinic Sports Medicine section in the late 80's/ early 90's.

Ms. Homitz, has been running a Pilates school for over 20 years and has taught students and professionals from dance companies, athletic teams/organizations, physical therapists, trainers, actors, singers, allied health professionals and medical professionals from a wide variety of different disciplines. Ms. Homitz, is also adjunct faculty University of Akron Department of Theatre and Dance since 2000, teaching foundations of movement and somatic education. Ms. Homitz, founded Body Technic Systems Inc, in 1997, as a premier physical therapy and movement education clinic. She has also presented at IADMS, International Association for Dance Medicine & Science, given lectures/ demonstrations on this area and many other movement forms of training for Allied Health Practitioners, medical personnel and other populations.

### **Testimonial**

*I have known Ms. Homitz since 1998 when she was employed here in our Sports Medicine Section as a physical therapist... Upon completion of her Pilates certification, she became one of the first therapists in the Northeast Ohio area to institute this significant rehabilitation technique. She has since gone on to become an instructor of the Pilates technique. Ms Homitz was a valued member of our physical therapy staff, not only as a skilled physical therapist but as a teacher in her profession with a special interest in dance and movement medicine. **John A. Bergfeld, M.D., former Team Doctor for the Cleveland Browns and Head of Orthopedics Sports Medicine, Cleveland Clinic Foundation***
